Transport Systems Management

Memo

To: **Security Access Restriction Associations
or Bodies**

From: **Ms. Lisa Seftel**
Executive Director: Transport Department

Date: 16 October 2018

Re: **REVISED SECURITY ACCESS RESTRICTION POLICY**

Dear Security Access Restrictions Associations or Committees

Over the last year, the Transport Department conducted a review, including a public participation process of the Security Access Restriction Policy. This was as a result of a request by the Executive Mayor, Herman Mashaba as well as requests from residents for changes especially as to whether they can use electronic devices such as remotes and push buttons.

The City of Johannesburg's Council approved a revised Security Access Restriction Policy at their last meeting on the 27 September 2018.

To inform interested residents of the changes as well as to explain a new process to apply for permanent road closures, the Transport Department will be hosting a Public Information Meeting on Thursday 15th November 2018 at 6pm at the Reception Room, Metro Centre.

You are invited to attend.

Regards,

Lisa Seftel (Ms)
Executive Director: Transport Department
